ABSTRACT

This volume cumulates the indexes that appear in the six bimonthly issues of "Resources in Vocational Education," volume 10, numbers 1 through 6 during 1977. This cumulation is intended to be a companion volume to the individual issues of "Resources in Vocational Education," which contain the complete resumes of research, instructional, and other materials in vocational and technical education, and abstracts of funded research and development proposals. Three indexes are provided: subject, author, and institution. Each entry lists the title of the document and the ED (ERIC document) number of the complete resume as it appears in the individual issues of "Resources in Vocational Education." Instructions for ordering individual documents are included at the back of this volume. (Editor/BL)

Foreword

Finding available information is a major task for researchers, curriculum specialists, teachers, administrators, and students. The Center for Vocational Education is dedicated to helping others find useful information.

Resources in Vocational Education is prepared bimonthly by the staff of the AIM/ARM Project under a contract with the U.S. Office of Education, Bureau of Occupational and Adult Education. Included are abstracts of research, instructional and other materials in vocational and technical education, and abstracts of funded proposals. The full text of most documents announced in *Resources in Vocational Education* is available in microfiche or hard copy from the ERIC Document Reproduction Service (EDRS). Microfiche also is available in local ERIC microfiche collections.

We appreciate the contributions of state research coordinating units, curriculum coordination centers, instructional materials laboratories, local school systems, colleges and universities, and professional associations. Members of the profession are encouraged to send instructional and research material for possible inclusion in future issues of *Resources in Vocational Education*.

Organization of this Index

This volume cumulates the indexes that appeared in the six bimonthly issues of **Resources in Vocational Education**, Volume 10, Numbers 1 through 6 during 1977. This cumulation is intended to be a companion volume to the individual issues of **Resources in Vocational Education**, which contain the complete resumes and availability of the documents.

Three indexes are provided in this volume:

Subject
Author
Institution

Each entry lists the title of the document and the ED number of the complete resume as it appeared in the individual issues of **Resources in Vocational Education**. The searcher can use the ED number to locate the complete resume in the individual issues.

Instructions for ordering individual documents appear in each issue of **Resources in Vocational Education** and at the back of this volume.

Subject Index

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the *Thesaurus of ERIC Descriptors,* are in alphabetical order.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the report can be found under that number in the Resume Section.

The symbol // appearing after an accession number identifies a document that is not available from the ERIC Document Reproduction Service and that is not in the ERIC Microfiche Collection.
